

It was with great expectation that we here at CaribVoiceRadio broadcasted live from Barbados' Girlfriend's Expo & Arts Festival presented by Girlfriends foundation in its 10th Year on Saturday, February 2nd, 2019 and Sunday, February 3rd, 2019 respectively with a theme of 'Africa'.

Many supporting organizations were on-site with riveting competitions such as the Beep wash-and-dry dishwashing contest, which proved to be exciting! In addition, representatives floated by on behalf of Kili Base Adventures, the Tanzania tour company providing quite a package about the scenery in that part of the African continent inclusive of the experience of climbing Kilimanjaro mountain, one of the highest measuring mountains to date. The company, Kili Base Adventures is run by none other than Managing Director, Mr. Sifael Hariohay.

In their own unique ways, entrepreneurs and vendors alike presented their handcrafted jewelry pieces, soaps, creams, bags, natural hair care products and even African materials and African based foods on sale. We captured some photos and video footage from some excited vendors.

VIP sections of the event boasted a creative wrap with trainees from the Barbados Vocational Training Board under the Bar & Restaurant program to showcase their skills.

Not to be missed, the segmented fashion show presented awesome hands-on work from some local bayan designers including Sean Springer, Gem crochet and Jally G.
